RE: OpenAccess Alliance Partnership – Notice of Attainment of Certification

Dear Mr. Sundheim:

We are pleased to inform you that the Enterprise Air Mobile Badge Management (Version 1.0) product that you recently submitted for certification with the LENEL OnGuard 5.11.105 software was tested and has been officially certified by LENEL.

Please note that this certification only applies to the combination of the unique version of each company's products which are listed above. All other versions of your product will require a new certification application, as will any of your products (including the version that is the subject of this letter) that you wish to have certified as being compatible with future OnGuard versions.

All of your rights to market the certified interface are outlined in the existing OpenAccess Alliance Partnership Agreement between our companies. This certification letter does not enlarge or diminish your rights, as contained in that agreement.

We look forward to working in cooperation with your company to provide the security marketplace with a broad range of excellent, interfacing products.

Please feel free to call me with any questions regarding this letter or about the OpenAccess Alliance Partnership program.

Sincerely,

Alex Zapesochny
Director of Business Development
